Series Statement

Series Name: Annual Survey of Jails in Indian Country Series

Series Information:

This series was begun in 1998 by the United States Bureau of Justice Statistics and was collected as a component of the Annual Survey of Jails (ASJ). The purpose of this data series was to gather data on all adult and juvenile jail facilities and detention centers in Indian reservations, pueblos, rancherias, and other Native American and Alaska Native communities throughout the United States. The survey provides data on the number of inmates, staffing, and facility characteristics and operations of all confinement facilities operated by tribal authorities or the Bureau of Indian Affairs (BIA), U.S. Department of the Interior.

Years Produced: Annually

Abstract

The purpose of the Survey of Jails in Indian Country is an enumeration of all known adult and juvenile facilities -- jails, confinement facilities, detention centers, and other correctional facilities operated by tribal authorities or the Bureau of Indian Affairs (BIA), U.S. Department of the Interior. For the purpose of this collection, Indian country includes reservations, pueblos, rancherias, and other Native American and Alaska Native communities throughout the United States. The survey collects data on the number of adults and juveniles held on the last weekday in June 2016, type of offense, average daily population in June, most crowded day in June, admissions and releases in June, number of inmate deaths and suicide attempts, rated capacity, and jail staffing.

Summary Data Description

Time Period: 2016

Date(s) of Collection: 2016

Country: United States

Geographic Coverage: United States

Geographic Unit: City

Unit of Analysis: Jail facilities

Universe: Adult and juvenile facilities -- jails, confinement facilities, detention centers, and other correctional facilities in Indian country operated by tribal authorities or the Bureau of Indian Affairs (BIA), U.S. Department of the Interior in the United States in 2016.

Kind of Data: Survey data

Methodology and Processing

Data Collection Methodology

Time Method: Cross-section

Data Collector: Westat, Inc.

Mode of Data Collection: Faxed questionnaires and phone calls

Characteristics of Data Collection Situation: The survey was conducted in June 2016. The reference date for the survey is June 30, 2016. For 2016, the survey roster consisted of 90 facilities. Either prior to the fielding of the survey or during data collection activity, ten facilities were nonoperational or out-of-scope. Of the eighty active facilities, five facilities, the Tohono O'odham Juvenile Detention Center in Arizona, the Omaha Tribal Police Department and Adult Detention in Nebraska, the Ki Yuksa O'Tipi Reintegration Center in South Dakota, the Medicine Root Detention Center in South Dakota, and the Oglala Sioux Tribal Offenders Facility in South Dakota, did not respond to the data collection. When comparing 2016 data to the resulting report, data on inmate populations were estimated for survey and item non-response. In 2016, imputations for the midyear jail populations, ADP, peak population, and admissions during the month of June used the most recent available data. The imputed value for the peak population for one facility during June 2016 was based on their midyear population or ADP in June 2015, whichever was greater. Estimation procedures for inmate characteristics and jails staff are included on pages 8 through 10 in Jails in Indian Country, 2016. https://www.bjs.gov/content/pub/pdf/jic16.pdf

Data Use Statement:

Citation Requirement: Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications.

Deposit Requirement: To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Visit the ICPSR Web site for more information on submitting citations.

Annual Survey of Jails in Indian Country, 2016 Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
